CHEAPER RADIUM

Government Cuts Production Leaders Fight for Legislative Cost to \$36,050 a Gram, and May Do Better.

ORE CONSERVATION URGED

WASHINGTON, July 27 .- Secretary Lane announced to-day that the production of radium from Colorado carnotite ores by the bureau of mines of the Department of the Interior, in connection with the National Radium Institute, has passed the experimental stage in its new process and is on a successful manufacturing basis. He also declared that the statements made to Congress concerning the ability of the bureau of mines to produce radium at a greatly decreased cost over other processes had actually been verifled and that the cost was even less

than predicted. Secretary Lane raid: "The cost of one gram of radium metal produced in the form of bromide during March, April and May of the present year was \$36,050, I am informed by Dr. Charles L. Parsons, in charge of the radium investigations of the bureau. This includes the cost of ore, insurance, repairs, amortization allowance for plant and equipment, cost of bureau of mines salaries and all expenses incident to the production of high grade radium bromide. When you consider that radium has been selling for \$120,000 and \$160,000 a gram, you will see just what the bureau of mines has acomplished

"The cost of producing radium in the was somewhat higher, but not enough seriously to affect the final average.

No Immediate Drop in Price.

selling price of radium. The National Radium Institute was fortunate in securing through the Crucible Steel Company of America the right to mine ten claims he would prefer to see the lines along the would prefer to see the lines along the state of the securing to them and ind D'Artagnan in one, with an Irishman squaring the triangle. NEW YORK, July 27.

WELCOME TO ATLANTA.

Strange Message on the Decline of a Religious Movement.

To the Editor of The Sun—Sir: As your journal carries more weight for ability among Southerners (and gets away with it) than any other vehicle may I say to the 300,000 Southerners in New York city that:

Atlanta has buried the "men and religion movement" so deep that no religion movement" so deep that no results and the sun an "Unfortunately, however, special acid proof enamel ware, obtainable only in France, has not been delivered of suffi-
